

## Hong Kong Society of Mass Spectrometry

### Visiting Hong Kong Correctional Services Museum

### 香港質譜學會 — 懲教博物館參觀

#### 【 About 】

#### About The Museum

The Hong Kong Correctional Services Museum (HKCSM) is situated next to the parade ground of the Hong Kong Correctional Services Academy in Stanley, the museum is housed in a two-storey building with an area of about 480 square metres where more than 600 artefacts and numerous historical photos are displayed. The museum takes visitors on a journey through the historical development of Hong Kong's penal system and gives visitors a glimpse into the prison settings. There are one mock gallows and two mock cells inside the museum. Together with a mock guard tower that stands on the top of the building and the old prison walls in the outside garden, visitors are just like walking through a time tunnel towards the history of the correctional services in Hong Kong.

Situated in the annex building, the new Community Education Experience Centre, based on the theme 'Home • Nation • Corrections', showcases the Correctional Services Department's relations with our country and Hong Kong, and introduces the Department's education programmes for youngsters.

#### About the CSD

#### Placing Dual Emphasis on Safe Custody and Rehabilitation while Advancing with the Times A Century-old Foundation

It has been over 100 years since the then Prisons Department was tasked with the management of all the correctional facilities in Hong Kong after being independent from the Police Force in 1920. Over the past century, the correctional system in Hong Kong has undergone various major changes to keep pace with social development by evolving from its early focus on safe custody of persons in custody (PICs) to the additional emphasis on offender rehabilitation.

## Transforming Life

In 1982, the Prisons Department was officially renamed as the Correctional Services Department (CSD), representing a milestone in placing dual emphasis on custodial and rehabilitation services. Over the years, apart from making its best endeavours to enhance the custodial standard, the Department has been committed to fulfilling its life transformation mission with a view to assisting PICs to turn over a new leaf. In 1998, the CSD established the Rehabilitation Division to formulate strategies for the long-term development of rehabilitation services for offenders. Besides, the Department has been proactive in liaising with stakeholders from various sectors in order to make joint efforts in launching more diversified and appropriate rehabilitation programmes for PICs to facilitate their reintegration into society after release, thereby reducing crime and safeguarding public safety.
